

كلية الشرق الأوسط
Middle East College

Coventry
University

Dear Graduands, Congratulations on your well-deserved success!

Through the years spent here at Middle East College, you have grown to become successful graduands today. You have demonstrated immense commitment towards values and responsibilities and an ability to learn from both successes and failures. Today, as you graduate from MEC and begin a new chapter of your life, I wish that you continue to display all of these qualities in delivering your responsibilities towards yourself, family and the community.

I take this opportunity to commend you on all your accomplishments and wish you the very best for your future.

DR. Saleh Al Shaaibi
Dean

Over 4500 students representing over 24 different nationalities

Middle East College (MEC) is one of the leading higher education institutions in the Sultanate of Oman, located in the Knowledge Oasis Muscat (KOM), cultivating a thriving community of over 4500 ambitious students from the region and globally.

The college is accredited by the Oman Authority for Academic Accreditation and Quality Assurance of Education (OAAAQA), where it has achieved high ratings in Teaching Quality and Research Performance. The college has strong academic partnerships with Coventry University, UK, and the Breda University of Applied Sciences, Netherlands and offers various undergraduate and postgraduate programmes in Engineering, Science and Technology, and Business and Management to help students prepare for a bright future. MEC's contemporary approach to Teaching and Learning, with its continuously evolving curriculum and technology-assisted innovative practices, facilitates the development of cutting-edge domain skills and 21st-century skills that employers seek. At MEC, we go beyond traditional education, igniting a revolution that bridges the gap between academia and the world of work.

Vision

**Enterprising.
Resilient.
Impactful.**

Mission

**Transforming
education for
world of work**

Learner attributes

In its quest to achieve its goals and objectives, the college has curriculum and aligned to the programme and module learning outcomes. In addition to subject or domain specific skills acquired through each programme, students also get an opportunity to develop generic competencies that lead to holistic development and enhanced employability.

Professional competence

Domain knowledge and research skills

Learner autonomy and learning agility

Digital competence

Leadership and teamwork

Integrity

Effective communication

Intercultural competence

Social responsibility

Entrepreneurial mindset

Department of civil and mechanical engineering

The Department of Civil and Mechanical Engineering at MEC combines specialised expertise to deliver a comprehensive education, nurturing proficient engineers across various programmes. Its academic offerings encompass BEng (Hons) in Civil Engineering, BEng (Hons) in Mechanical Engineering, BSc (Hons) in Quantity Surveying and Construction Management, and MSc in Construction Project and Cost Management, ensuring students are well-versed in the latest industry knowledge.

Within the Civil Engineering and Quantity Surveying and Construction Management programmes, the emphasis is on sustainable design, quantity estimation, bills of quantities, and advanced construction management techniques. Concurrently, the Mechanical Engineering programme prepares students for a spectrum of challenges, including design, research and development, manufacturing, operation and maintenance, and effective management.

The department's programmes cultivate well-rounded graduates capable of addressing intricate challenges and contributing substantially to societal progress. Through student chapters and esteemed accreditations, the department fosters professionalism and high-quality talent in construction, striving to mould the graduates of tomorrow who meet the evolving demands of the world of work.

List of programmes from which students are graduating

1. BEng (Hons) in Civil Engineering
2. BEng (Hons) in Mechanical Engineering
3. BSc (Hons) in Quantity Surveying and Construction Management
4. MSc in Construction Project and Cost Management

Department of Computing and Electronics Engineering

The Department of Computing and Electronics Engineering is dedicated to academic excellence and technological innovation. Specialising in Telecommunications, Cybersecurity, Data Analysis, Software Engineering, and Network technology, its curriculum is designed to evolve with the latest industry trends in the world of work.

Graduates emerge exceptionally well-prepared for success in the dynamic IT and telecommunications sector, having acquired meticulously honed skills through our carefully crafted undergraduate and postgraduate programmes. By engaging with leading professional bodies, the department maintains its position at the forefront of industry relevance.

The department is committed to shaping the future of technology, ensuring our students are equipped with the knowledge and skills demanded by the ever-evolving landscape of computing and electronics.

List of programmes from which students are graduating

01. Bachelor of Engineering (Hons) in Computer Engineering (Cyber Security)
02. Bachelor of Engineering (Hons) in Computer Engineering (Networking)
03. Bachelor of Science (Hons) in Computer Science (Computer Science)
04. Bachelor of Science (Hons) in Computer Science (Data Analytics)
05. Bachelor of Science (Hons) in Computer Science (Software Technology)
06. Bachelor of Science (Hons) in Software Technology
07. Bachelor of Engineering (Hons) in Electronics and Instrumentation
08. Bachelor of Engineering (Hons) in Electronics and Telecommunication
09. Bachelor of Engineering (Hons) in Hardware and Networking
10. Bachelor of Engineering (Hons) in Wireless Networks
11. Master of Science in Information Technology

Department of Management Studies

The Department of Management Studies offers Diploma and Bachelor's programmes in Business and Management. The Business Administration programme aims to develop intellectual awareness and technical competence in Accounting and Finance, Human Resource Management, Marketing, and General Administration. The department also offers a Bachelor's programme in Logistics Management to help students develop Logistics and Supply Chain Management competencies.

The department also collaborates with other academic departments at MEC and offers management modules to their students to support their programmes. The modules offered by the department impart fundamental and specialised knowledge of business, its environment and functions and equip students with the managerial skills required for employment. Apart from the subject knowledge, the department attempts to develop the student's interpersonal skills and problem-solving abilities. The emphasis is on the student's holistic development and understanding of emerging national and international business events and issues.
